

REMARKS

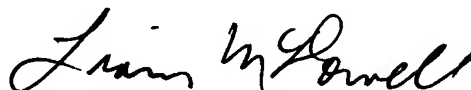

In the amendment of April 1, 2004, applicants had added new claims 20-24. Applicants had inadvertently indicated that each of new claims 20-24 was readable upon the elected species of Figures 1-4. However, as noted in the Official Action, claim 22 includes a Venturi device as illustrated in Figures 7 and 8. The Venturi device is not included in the elected species. Accordingly, claim 22 does not read on the elected species. Only claims 20, 21, 23 and 24 are believed to read on the elected species.

However, claim 20 is believed generic and allowable. As previously indicated, claim 1 is believed generic and allowable. Therefore, the restriction requirement should be withdrawn and each of the claims present in the application should be allowed.

In view of the foregoing remarks, it is believed that the present application is in condition for allowance. Reconsideration and allowance are respectfully requested.

Respectfully submitted,

YOUNG & THOMPSON
